Two Stars

By becky fagan

Soo many misspellings. Very amateur.

0 of 1 people found the following review helpful.

Very informative

By Richard Smith

This is a great book. It is about this very commonly used plant. I mean everyone has used or heard of this

plant at least one time in their lives. This book describes the plant in so many ways. It describes its physical appearance and it's many uses. I never knew all the possibilities of using this or any other plant and now I'm curious to learn more! I highly recommend this book.
