Unacceptable for a 5th edition.

By Florence Dietrich

It is with much anticipation that I received the Boards & Wards for step 2 & 3, 5th edition a few days ago, I had been planning on getting it ever since the new edition was announced.

Unfortunately, I have found it to have many spelling mistakes and editorial shortcomings - including the contact email to leave suggestions for the authors, which is truly ironic. This, in my opinion, is unacceptable, particularly in a fifth edition. It is distracting and annoying, and I am very much left with the feeling that the book was finished in a rush with too little care.

I have studied with many books, and this is the first one I feel compelled to complain about. It is a great shame, for the book has many assets. I do not mean to offend, but for 40USD I think it is only fair to expect a thorough editing and proofreading, and I do not believe that it ought to be done by already busy readers.

Not crazy about the Kindle Version

By ralierruss

The bullets in the Kindle edition do not tab in so all of the text is on the same line making it very difficult to read... other than tha, I like the product. I love it is formatted for each specialty

Great book for nccpa boards

By Joshua L. Blocher

I am a physicians assistant & used this & prior versions to take & pass the PANCE & PANRE! I used this almost exclusively (80-90% of studies) & passed my first PANRE recert without taking a class. This is a must have for board review & the cardiology section (EKG section) is fantastic.
