For \$2.00 This Book Acts As A Great Refresher, And An Overiewing Time-Saver

By Dawn Dolly Webb

Just as with other reviewers, I read the 4 Hour Workweek quite a while ago and was looking for a quick overview that would jog my memory on the key points. A few reviewers seem to be saying the book is too short. I disagree. The point of this book was to be a QUICK guided overview that will act as a refresher. It's obviously not the entire 4 Hour Workweek- it's just a synopsis there to help you look back and remember. It's short- yes, but that's the entire point of this book. It's a 2 minute refresher.

For the money spent- literally a JUST two dollars, this book saved me a good four to five hours of doing an overview myself. It was as informative as it needed to be, but captured its original intent of keeping it 'short and sweet'. For people who enjoyed the 4 Hour Workweek, but aren't looking to reread the entire book- this is a good alternative. Also, for people who may not have yet delved into the 4 Hour Workweek, but want to get the basic idea, this is a GREAT place to start.

This book did a great job in terms of keeping everything quickly organized. I like that I can open it as a reference whenever I need it- and can easily find whatever it is that I'm looking for. Because the book is so smart, all of the information is easily accessible without being too overwhelming. Too bad it isn't in PDF format- it'd be even more convenient!

If you're looking for a QUICK overview of the 4 Hour Workweek, but don't want to spend hours over-viewing it yourself- then this is your prime investment. I mean- for \$2.00 you're literally buying yourself free time. You have all of the information quickly accessible to overlook at your leisure, but don't need to spend all of your time creating this overview yourself. I was just looking for a timely refresher and that's what this book gave me. I'd recommend it for anyone looking for the same thing.

The 4-Hour Workweek... In 2 Minutes...

By Mike Helton

I once attempted to read the 4-hour workweek, but got pretty tired of it and put it down about a quarter of the way through. It wasn't that I didn't enjoy the insights in the book, or that I wasn't amused by the author's style - it's just that Tim Ferris is very bad about dragging out information that could easily be summed up in a few pages. This book is a major breath of fresh air!

I appreciate that this summary not only gives a solid 30-minute read version, offering all of the key information of the original book, but also throws in a 2-page snap shot of the book too. I wish that more summaries offered this feature, if only as a quick reference.

In response to the number of reviews criticizing this book for some formatting flaws, I'm curious what exact problems you had with it? The latest version must have been updated, because I found the book very well-formatted and easy to follow. I definitely recommend this summary.

4 of 4 people found the following review helpful.

good set of notes

By Rafa G.

It highlights the most important points the "2 minutes insight" author considered about Tim Ferris book. It is ok in order to have a general idea of what the book is about.

I would consider this summary as a first step, then reading a more indepth summary and finally, reading the original book, specially those parts more interesting to us.
