My 8 year old loves these books!

By Tiffany

My 8 year old loves this series. We working hard on her fluency. This book is perfect for her age and reading level. It is not too difficult, but does throw some adult words in there now and then to challenge her and increase her vocabulary

Great little series!

By JS

These books are perfect for your 5 year old to listen to as you read. There are still some pictures in them to help them follow the story and visualize what is happening. Then in a few more years they can read them by themselves!
