"Must Read" for all Compliance Professionals

By Paul S Tufaro

Enterprise Compliance Risk Management: An Essential Toolkit for Banks and Financial Services is the single best articulation of the current state of compliance risk management as it relates to complex financial institutions that I have read to date. Saloni Ramakrishna does not simply provide an overview of the compliance function – she very adeptly focuses on and explains the principles underlying the discipline of compliance. I highly recommend this treatise as a “must read” for all Compliance professionals.
