The OBSESSION SERIES Parts ONE & TWO INCLUDED (Previously known as the BLACK LETTER SERIES)

Grand Rapids was my saving grace. My new job and my best friend kept me grounded, and far away from my past.

This was my new life.

And I was safe.

But then I was transferred to Miami where I began working with Mitch Conklin, the site manager. He was sexy as sin, and irritating as hell. He drove me crazy, but I couldn't deny the chemistry. He was begging for me to take his bait, and I wanted to...

Until he found me.

My heart raced...

My palms began to sweat...

And the air was stolen from my lungs.

This was my life.

And no one was safe.

"Brooke Page not only delivers a suspenseful, erotic tale, but balances it incredibly well with a refreshing amount of humor and heart break. I'm excited for book 2, eager to discover what's next for Mitch and Jamie."

-USA Today & New York Times Bestselling Author Angela Graham

"Hide by Brooke Page is a great example of what romantic suspense should be. The plot is intriguing, keeping you on the edge of your seat, while also giving you two main characters that you know will be great together. This story had me furiously flipping the pages, needing to know what was going to happen next, and I'm still dying to know. This is a great read that I'd definitely recommend."- Amazon Bestselling Author Isabel Lucero

"If you enjoy your Romantic Suspense novels with a little sass, a lot of heat, and plenty of twists, Hide is for you."- Sara Mack

" I knew from her first book that she was an extremely gifted story teller, but I've got to say that she grabbed me hook, line and sinker from cover to cover with this one. This book is Romantic Suspense at its finest. Not to mention all of the sassy wit, loving romance and smoldering passion between the two main characters."- Hooker Heels Book Blog

"The suspense in this book was well written. As a reader you were captured in the moment and the need to know what had happened to lead everyone to where they were. The way that Brooke wove the story of

Jamie's past through what was happening in the present grabbed me throughout the entire book." Red Hot Romance

Hold on to your seat for Hide

By S. Butka

What can I say about Hide? Holy rollercoaster of emotions, Batman! One minute you're frustrated, the next you're teary, and then the next your pulse is racing. Hide will make you want to throw your Kindle, pick it up, and then try to crawl inside to soothe the characters.

Jamie's past is heart-wrenching. I enjoyed the past/present flip of the chapters; never once was I lost or confused (which sometimes happens when authors play with time). Since I knew Mitch was Jamie's love interest, I couldn't wait for them to get together. Their back and forth banter was cute, but in the back of my mind I was shouting, "Work it out, already!" I had a soft spot for Mitch immediately, and it only grew with each veiled insult hurled at him by his brothers and, occasionally, Jamie. Their chemistry is off the charts hot, and when they do "connect", it's worth the wait. Ms. Page knows how to write a steamy scene ;)

I knew Hide was classified as romantic suspense, but I didn't know how suspenseful it would be. Let me just say WOW. Every time one of those black letters appeared, my stomach sank right along with Jamie's. Thankfully the author gives us plenty of backstory throughout the novel as to who is behind the letters and why. Brooke gives you plenty of reasons to love her characters, even the secondary ones, so when the ending of Hide comes WHAM! Right in the feels. Trust me, my notes at the end were full of !!!! and "Blankety-Blank better be okay!"

If you enjoy your love stories with a little sass, a lot of heat, and plenty of twists, Hide is for you. Now, while we wait for the second installment, let's all cross our fingers and say a prayer for Blankety-Blank. And no, it's not who you think it is ;)

Riveting, heart stopping and intense!

By Lorena Garcia

This book was so freaking intense and has left me breathless. People get hurt, lives are threatened, it's like a roller coaster . I mean, this book has left me baffled. This book's intensity took me to a whole new level when it comes to reading this genre. I just found myself hooked from beginning to end and these types of books are the best because you know that they are just that good.

Mitch is the youngest Conklin brother. He is arrogant, self-centered and all he cares about is himself. He never takes a woman seriously but the one thing he is good at is his job. He tends to flirt with Jamie non-stop and she is just plain irritated by him. But the more he flirts and the more time she tends to spend with him, she starts realizing that Mitch really isn't that bad of a person as she assumed he was. He can be annoying

and irritating but deep down inside he knows how to make her laugh and entertain her. He has won her over.

Jamie has been hiding and by hiding I mean, she's hiding from her past. She throws all her time to her work and tries to keep all men at a distance because she's afraid that her past will come back and continue tormenting her. True to her word, she starts receiving letters making her more nervous knowing that he has found her and is keeping an eye on her.

Mitch and Jamie take on a relationship even though she's afraid that he might get hurt because of her. But then she realized that she can't hide forever. She is determined to confront her past if it comes down to that and she wants to make whatever it is that she has with Mitch work because he's the first guy in a long time to make her feel again.

Mitch and Jamie are damn good together and I am so proud of her. She has finally found the courage to stand up for what she wants and is not afraid to confront this shadow that has been tormenting her for so long. But there were consequences that came along with her bravery and now we have to wait for the next installment to find out what in the world is going to happen with Jamie and Mitch.

This book really was worth my time to read -- 5 stars all the way!

WHAT just happened??

By Katie

**** NEW REVIEW ****

I finished reading a book by Brooke Page? that I couldn't put down. It was one of those books that has such a great suspenseful plot that keeps driving forward but at the same time leaving you wanting to know what's going to happen next.

HIDE is the first in a set of two books in the Black Letter Series (When reading this book I was so excited because I LVE Brooke and had the chance to meet her and hug her hard! AND she wrote Conklin's Blueprints which is an awesome book.. If you haven't read it you really should! Buy link: <http://goo.gl/7SZiMc>) yes that is right I said book 1..... I did NOT however realized this when I stated the book as I should have, but at the END! The end left me going , WTF, what is going on here?? (Ask Brooke about the messages I sent her)

This story is about Jamie and her involvement with the Conklin men when suddenly after a year her past starts to come back to haunt her. Throughout the book you slowly gain bits and pieces of Jamie's past, and find out who is sending these letters. Jamie made a decision when she was 17 that effected her entire family and she regrets it Every. Single. Day. Her memories are a constant reminder of the choice she made but when the letter start showing up again her panic sets in and she needs to make a choice to give in to her fear and push everyone away to protect them or live her life... Which will she choose?? Read to find out!

I loved this book (even though it's a cliffhanger... Yes I said the c-word...) and can't wait to read the second part when it comes out! This book gives you all sorts of feels; anger, pity, empathy, sadness, fear and even a bit of swooning over Mitch!

Great story Brooke, but where is my next part
