Why don't you spend 5 minutes and spend little money to obtain the book Human Memory: Structures And Images By Mary B. Howes here? Never allow the brand-new thing goes away from you.

Review

"Human Memory is an important text in memory science. It is expansive and in-depth, covering topics of theoretical importance and practical implication. The complete coverage allows a professor to teach the important theory that all students must be familiar with as well as many of the most contemporary issues in memory science." (Bennett Schwartz, Ph.D. 2006-10-16)

"Human Memory is truly comprehensive. It covers the essentials of memory as well as many theoretical perspectives. I look forward to assigning this book to my Learning and Memory class." (Roberto R. Heredia, Ph.D 2006-10-16)

About the Author

Mary B. Howes received her Ph.D. in 1979 from New York University with a concentration in Cognition. She specializes in cognitive psychology with particular emphasis on early memory. She teaches courses on statistics, cognition, and memory and is author of the text "The Psychology of Human Cognition: Mainstream and Genevan Traditions" (Allyn & Bacon 1990).
