“This book is a love letter to the place where I grew up, and the account of my heartbreak at moving beyond it. The book was written long before I left the Ironbound, and in hindsight I wonder if, even back then, I was trying to justify to myself the decision I had already made.”

-- from On ironbound (essay)

The Ironbound, a neighborhood in Newark, NJ, derives its name from the train tracks that surround it. Built in the 19th century, these tracks have enveloped the neighborhood through its evolution. While the city of Newark has evolved, the Ironbound has maintained its status as an immigrant neighborhood.

This book follows the journey of a nameless narrator as he explains the complexity of growing up in a home that is not your original birthplace. Eager to find meaning in his existence, he analyzes his relationship with his neighborhood through a series of blog entries that are simultaneously introspective and observing.

In this book, the author presents a romanticized version of his neighborhood. Newark is most often known for its crime and violence, but the narrator in this book presents a beauty often associated with different environments. As we grow to understand his fascination with the Ironbound we, too, become enamored. Some may see this as a book detailing a break-up, but it is far from that. This book is a letter of undying love to a place, even if the narrator is acknowledging that he must leave it.

Both confusing and enlightening, ironbound – a blog may inspire you to revisit past loves and memories. But mainly, it will encourage you to revisit your own places, some of which may have been left behind but have certainly not been forgotten.

Tracks We've All Been Down...

By Michal

"I'm losing you to the ways of the days." This sentence, which comes toward the end of Ironbound-a blog, strikes at the heart of the book. Like a man on a train forever leaving the crucible that formed who he is behind, he finds that the farther he gets, the less he misses what once was all he knew. Yet if he were to step outside and simply touch those train tracks, which extend all the way back, he could be brought there instantaneously. You can try to leave your past behind, but like it or not, you are bound to it. To truly break free requires an act of great will (burning bridges, or in this instance, exploding train tracks), which most of us don't possess. Instead, like the narrator of Ironbound, we find ourselves settling into the ways of our days, helpless to occasional bouts of nostalgia--to flashes of who we were in those halcyon days oh so long ago (and if not carefree, then no doubt a time that felt more intense). You out there in internet land, you will find

something in these pages to relate to, to find some hidden meaning in, or, if anything, a parallel track that will take you back to your own loved place. I know I did.

Shall we get technical before we bid adieu? The writing is honest and drips with emotion. The language used helps elucidate the themes present, as well as form little labyrinths to get lost in. What I enjoyed most is the voice, it really vibes with me, I guess, as it creates this dream-like fugue I dug. Like most good poetry, it demands to be read slowly. And out loud, if you can manage it. Meditative and reflective, I found myself re-reading certain sections multiple times. Like any book, it's not for everyone but then again, you already knew that. All I can say then is that I strongly encourage you to experience this book, as it's a good one. Good bye.
