New York Times Bestseller

Named one of the Best Gift Books of the Year by Entertainment Weekly, InStyle, House Beautiful, T: The New York Times Style Magazine, Better Homes & Gardens, Luxe Interiors + Design, People StyleWatch, Garden & Gun, The Los Angeles Times, The Chicago Tribune, New York Magazine, and more

John Derian's home goods empire reaches far and wide—in addition to the four John Derian stores he owns in New York and Massachusetts, his products are sold by more than 600 retailers worldwide, including Neiman Marcus, ABC, and Gump's in the United States; Conran and Liberty in the UK; and Astier de Villatte in Paris. It all started with his now-iconic collectible plates decoupaged with 19th-century artwork sourced from old and rare books, a process that credited him with elevating the decoupage technique into fine art. Over the past 25 years, the brand has expanded greatly to include home and general design gifts and products.

Now, for the first time ever, comes the book John Derian fans have been waiting for. Culled from the thousands of images that have appeared in his biannual collections, here is an astoundingly beautiful assortment of nearly 300 full-bleed images in their original form. From intensely colored flowers and birds to curious portraits, hand-drawn letters, and breathtaking landscapes, the best of John Derian is here. The result is an oversized object of desire, a work of art in and of itself, that brilliantly walks the line between commerce and art, and that is destined to become the gift book of the season.

Incredible Picture Book!

By P.McGivern

John Derian is incredibly talented & I have been admiring his beautiful decopodge plates for years! When I saw his book in my favorite home decor store recently I couldn't resist ordering it for less on Amazon! In fact I ordered 2, one as a gift. The book is full of gorgeous prints one after the other of animals, insects, floral images, a ship, people, ... So vibrant & colorful! It's inspiring to examine the fine detail of each print. Have a magnifying glass next to this fantastic large book on my coffee table! Love love love this book!!!

Great book for everyone, really!

By LMF

I really do love this book! It's rare to find picture books for adults where the words are left out and all you have is eye candy. Let your imagination soar with every page! Picture after picture after picture. No words. Just pictures. LOVE, LOVE, LOVE!!! I purchased this book for my sister this Christmas. She is mentally & physically disabled and in her 40s. She is too old for the kid picture books, and she isn't able to read the adult picture books that are short on pictures and loaded with words. With this book, she'll be able to keep it open on her lap, turn the page whenever she feels like it and enjoy the intricate details within every story that each picture holds. Thank you, John Derian!

Yeah, kinda

By papergirl

Well, I have to admit that I am kind of disappointed. But I'm also coming from the perspective of not having paid full price or even the discounted Amazon price for my copy. I was able to purchase this book used and paid less than half the cover price. Had I paid full price or Amazon price I would have been a whole lot more disappointed.

Here is what I like:

The book is very well made.

Reproduction of the images is sharp and clear and colorful.

The paper the images are printed on is a good quality stock.

The images are, indeed, very large - I would guess much larger than the originals based on my experience with antique chromolithographs and steel engravings. If you're looking for details of antique images you're going to get that with this book.

What I don't like so much:

Because the images are so large - more than double or triple their original size in many if not all cases - some have lost their "prettiness" for me.

Content on several pages is very sparse.

Many of Derian's favorite images, which is what this book is all about, didn't really excite me.

The double-page spreads. Ugh. I hate them.

(I've included photos to illustrate my points. My photos of the faces are not detail shots - they are really that large in the book - book page size is about 11" x 14" and the images fill the page.)

So bottom line - had I paid full price or Amazon price I would have been sorely disappointed. But I didn't and because the amount of money I invested was smaller I can set the bar a bit lower. Given that, had I looked through the book before I'd purchased it I have to admit that I would have probably waited for it to get really really cheap.

Book content is 3-stars, book build is 5-stars so I give it 4-stars with a caveat - buy it used if you can.
