Winner of the Dorothy Canfield Fisher Award and the Sequoyah Children's Book Award: To save money for a bike, a young girl becomes a business tycoon

Janie is desperate for a new bike, but her parents won't buy her one unless she can pay for half of it herself. She's too young to babysit and it's too late to get a paper route, so Janie decides to open her own business. She calls it Kid Power and promises her customers that there is no problem too big or too small for her to handle—but this budding entrepreneur will soon find that running a company isn't as easy as it looks.

As Janie begins walking dogs, feeding cats, cleaning gutters, and pulling weeds, she gets closer and closer to her bike. But as Kid Power grows bigger than Janie can handle, she learns that there are some problems money can't solve, and some things even more important than getting a new bike.

No job to big or small! KID POWER!!!

By A Customer

Janie Golden has been conting on a summer riding a new 10 speed bike wth her friend,Lisa. But when her mom loses her job, dad says"No new bike." Janie couldn't be more dissapointed, until she gets a brilliant idea. "I'll earn the money myself,"she says. And that's how Kid Power begins. No job is to big or small, Janie decides, And put up a sign in the supermarket. The calls come fast and furious for jobs as a dgo-walker, baby-sitter, cat feeder, gardener-- so many that Janie can hardly handle them all! Kid Power is a huge success, and Janie counts her money every night. Until she realizes that she's been so busy making money, that Lisa may never be friends with her again!

Required School Reading

By A Customer

My daughter was given this book as a 4th grade reading requirement. She really enjoyed it and couldn't put it down. She asked about Gross and Net and it spun me around. I was pleased that she found it exciting. I hope it gets her in the mindset of saving and being more open in life with the same go-get-it personality as the main character. But even if not, my daughter is learning a lot and most of all, she's enjoying it.

This book is a must have for all young girls striving for more than average.

Every kid should have this book.

By M

Forget the economics slant from other reviewers. In my opinion, this is one of the finest children's books ever written. That it features an interesting, intelligent, fun, individuated girl, moves it to the top of must-have reading.

And if you can get it in the original hardcover, with that simple and wonderful illustration, all the better. There's no need for any fancy-schmancy. This is also the perfect gift for an eleven-year old, as the heroine is exactly that age.
