Buy the second edition

By Emily L. Ferguson

The hardcover is 1988. It's a good read, well researched and assembled, especially if you are interested in the details of the revival, but a lot has happened since 1988. The need to keep the book from becoming an encyclopedia certainly curtails much of the post Greenberg/Bagby/Leonhardt era, but the pre-WWI chapters summarize a lot of valuable and interesting historical data in a very useful way. Gobs of footnotes in the back, lots of biblio but it's presented in paragraph style making it very difficult to scan.

7 of 11 people found the following review helpful.

Informative, fun, and interesting!

By A Customer

This guy, Harry Haskell, sure knows his music history. I suppose this book is too esoteric for some, but if you like history and music as I do, then you'll love this book. I highly recommend it.
