Visible Gods is an imaginary dialogue between Socrates and four fictitious modern-day characters. Socrates' worldview is of a living cosmos with man only half-way up the hierarchy of all beings; above him reign suprahuman beings of great majesty and power - the visible gods. The moderns with whom Socrates converses disdain his ancient Greek cosmos as primitive and false. Yet as Socrates questions them in typically ironic fashion about the discoveries of science, it's not at all clear that the scientists' view of "a dead universe populated here and there with rare accidents of life" is right. Indeed, the more the moderns argue their case, the more Socrates shows they are arguing his... Douglas Harding completed Visible Gods in 1955. But the 'living universe' does not go out of date! Join this conversation and discover - rediscover - the brilliant, shining, truly majestic life that is within you and without you. Put aside modern preconceptions and see the world with fresh, innocent, truthful eyes, and be amazed!

Here you'll find many fascinating ideas to ponder about our identity in (and with) the world and their implications for viewing life with value and meaning, and living a life open to its Source. Written in 1955, a few years after the Hierarchy book, "Visible Gods" is here published for the first time,

The Visible World

By Flatlander

An amazing book by Mr. Harding!!! I have been a fan and reader for years, and my only regret is that this book is unavailable as a hard copy. Reading the electronic version is a chore predicated upon the availability of technical devices and support. I find a book, with paper and print, far superior. Despite that, the content is extraordinary. If you don't see the world differently after reading this material, you aren't really looking..
